HTML	Web Application Development	Simultaneous Project Management
CSS	Proactive Debugging and TDD	Team Leadership
jQuery	Excellent Communication Skills	Customer Service Expert
JavaScript	Version Control	Inventory Management
Node	Self-Starting Work Ethic	Employee Mentoring
SQL	Robust Quality Control	Multidisciplinary Teaching
React	Equipped for Remote Work	Independent Time Management

PROFESSIONAL EXPERIENCE

Prime Digital Academy

July 2020 – November 2020

Full Stack Software Engineer

I reimagined my future by enrolling in an accelerated program that provides a holistic approach to software engineering and web development, including public speaking, diversity and inclusion training, and self-directed career development.

- Conceptualized and engineered web applications using relevant technical programming languages
- Cooperated remotely on numerous group projects using version control software
- Troubleshooting and debugged legacy and original code
- Designed and built relational databases while writing SQL for PostgreSQL and manipulating data
- Research coding philosophies and developer tools to accomplish project goals
- Developed a mobile optimized app that enables users to track the well-being of their backyard chickens and provide a customer service portal to a small business
- Collaboratively developed a customer service request app for a small airfield FBO that enables pilots and aviation enthusiasts to reserve hangar and runway fuel and field services

Spoon and Stable

October 2014 – March 2020

Hospitality Professional

As part of the opening team, I helped establish the expectations for one of the Upper Midwest's most renowned restaurants and reinforced the importance of providing consistent and authentic hospitality experiences for long-term success.

- Managed an average of \$500,000 a year in sales
- Maintained brand consistency by executing the company's standards of service
- Found opportunities in customer complaints to deliver immediate and amenable solutions
- Developed new protocols to maximize efficiency in the dining room
- Trusted and responsible for leading high value private parties that ranged in size from six to forty people

Genz-Ryan Plumbing and Heating
Production Assistant

January 2014 – January 2016

Hired as a parts delivery driver and was quickly promoted to an office position that managed inventory for new home construction orders using their proprietary software.

- Created templates for new housing developments
- Compiled, issued and managed material lists for new construction projects
- Collaborated on streamlining workflows to reduce project redundancies

University of Wisconsin-Madison
Faculty Assistant

August 2008 – August 2013

Taught a variety of ESL classes based on the academic needs of non-native English speakers, including oral communication, reading, and composition writing.

- Administered pre-existing curriculum for intermediate and advanced level academic reading and writing classes
- Created new and unique curriculum for non-matriculated students at all levels of ability
- Simultaneously managed multiple student research portfolios
- Developed and taught film and video elective classes

EDUCATION

Prime Digital Academy

Full Stack Software Engineer Certification, 2020

University of Wisconsin – Madison

M.A., Applied English Linguistics, 2011

University of Wisconsin – Milwaukee

B.A., English Literary and Critical Studies, 2006

OTHER EXPERIENCE

Green Earth Growers

CSA Worker Share and Farm Support

Prior Lake, MN

For the past five seasons, assisted in the implementation of crop planting and maintenance, pack shed cleaning, and various farm tasks for CSA and wholesale vegetable farming.

Open Arms of Minnesota

Delivery Driver and Kitchen Support

Minneapolis, MN

Delivered nutritionally rich meals to clients living with life threatening diseases and helped prepare those meals in their kitchen facility.

Worldteach

Oral English Teacher

Ningyuan, Hunan, China

Developed curriculum for the direct purpose of teaching Oral Communication to non-native English-speaking schoolchildren in large, multilevel classes; approximately 1200 students a week; classes had an average of 65 students. I also served as a liaison for my culture in a rural and remote location.
